

Program > Keynote Speakers

Keynote Speakers

[Ke Wu](#)

Enabling Ambient Electromagnetic
Energy Harvesting

[Mona Jarrahi](#)

New Frontiers in Terahertz
Technology

[Yahia Antar](#)

Some Recent
advances in
Antennas and Near
Field Theory with
Impact on the Design
of Future Microwave
Antennas

[Tayeb Denidni](#)

Electromagnetic band gap
structures and their
applications for modern agile
antennas

[Akram Alomainy](#)

Wearable and Body-centric
Technologies -
Antennas and Propagation
Prospective from Textile to
Nano-scale Networks
